

Listserv Guidelines

(Updated October 21, 2019)

The WPATH Global, US and Student Member Listservs are provided to members as an interactive forum and contains information that is intended for WPATH members only. The Listservs are to allow discussion among members to facilitate WPATH's mission and vision, which can be found on the website [by clicking here](#). All messages in each group must remain internal and not be released to outside entities. Group members not keeping these communications internal may be contacted by a group manager.

All listserv participants should be respectful towards other members, delegates, speakers, organizers, staff and volunteers. Disparaging comments will not be tolerated and will not be posted. Group members who attempt to post such messages may be contacted by a group manager and their post may be moderated. Only send emails to the entire group membership if they are of interest to everyone in that group. If you wish to thank someone for their input, reply to that person only.

All listserv participants should use language that is respectful and non-pathologizing.
