Invitation

Dear WPATH Supporter:

We are excited to announce our 27th Scientific Symposium being held September 16, 2022 – September 20, 2022. We are thrilled once again to be meeting in-person and bringing together healthcare professionals across many specialties including medicine, surgery, law, psychology, mental health, social work, nursing, counseling, psychotherapy, family studies, sociology, anthropology, speech and voice therapy, sexology, pharmacology, physical therapy, and other related fields and community members to promote evidence-based care, education, research, public policy, and respect in transgender health.

The World Professional Association for Transgender Health (WPATH) is a 501(c)(3) non-profit, interdisciplinary professional and educational organization devoted to transgender health. Our professional, supporting, and student members engage in clinical and academic research to develop evidence-based medicine and strive to promote a high quality of care for transgender and gender diverse individuals.

We are funded primarily through the support of our membership, educational offerings, and through small donations and grants.

This is a unique opportunity for our many supporters to exhibit and display at our conference.

Don't miss the chance to connect with professional colleagues and healthcare professionals.

This meeting continues to bring together our vision to convene diverse professionals dedicated to developing best practices and supportive policies worldwide that promote health, research, education, respect, dignity, and equality for transgender and gender diverse people in all cultural settings.

This conference is unique in its scope, breadth of knowledge and expanse of expertise.

We are thrilled that this symposium will help to launch the long-anticipated 8th revision of the Standards of Care, a globally recognized document that provides clinical guidance and standards of care for transgender and gender diverse people around the world.

We hope you will be able to join us and support WPATH in Montreal in September 2022.

Please sign up today to exhibit/display at the conference and interact with our speakers and attendees. Please note that we have provided special packages for our larger supporters to not only commit to participating at the conference but to also help secure scholarships for community members working in the field, to attend the conference.

If your company would also like to donate to WPATH through other departments, please reach out to Denise Castetter at Denise@veritasamc.com, to discuss ways to do so, our goal is to educate the world on the standards of care and research for transgender and gender diverse people.

Thank you in advance for your support.

Blaine Vella
Executive Director, WPATH

WPATH EXECUTIVE COMMITTEE (2020 – 2022)

2020 – 2024
Christina Richards, DCPsych
Stephen Rosenthal, MD
Sanjay Sharma, MBBS, MMS

ESTABLISHING STANDARDS OF CARE FOR TRANS AND GENDER DIVERSE PEOPLE

WPATH has established internationally accepted Standards of Care (SOC) in transgender health. The Standards of Care are updated and revised as new scientific information becomes available. The 8th revision of the Standards of Care (SOC8) will be published and available as an open-access document in 2022.

WPATH publishes the Standards of Care which provide safe and effective pathways for transgender and gender diverse people to align their lives and bodies with their internal sense of gender identity, in order to maximize their overall health and to promote psychological well-being and self-fulfillment.

GOALS AND TASKS

As an international interdisciplinary, professional organization, WPATH works to further the understanding of the range of interventions, modalities, and medical and surgical gender affirming treatments for those who experience gender incongruence by professionals in medicine, psychology, law, social work, counseling, psychotherapy, family studies, sociology, anthropology, sexology, speech and voice therapy, and other related fields.

WPATH provides opportunities for professionals from various sub-specialties to communicate with each other in the context of research and treatment of gender incongruence including supporting our scientific symposium. Topics for consideration of presentation at the 27th Scientific Symposium include:

- Community Engagement
- Education
- Endocrinology/hormone therapy – Adult
- Endocrinology/hormone therapy – Child and Adolescent
- Health Services and Systems Worldwide
- International Medical Delivery
- Intersex/DSD
- Mental Health – Adult
- Mental Health – Child and Adolescent
- Non-Binary and Gender Queer Identities
- Obstetrics, Gynecology and Reproductive Health Sciences
- Law, Policy, and Ethics
- Primary Care – Child and Adolescent
- Primary Care – Adult
- Surgery – Feminizing
- Surgery – Masculinizing
- Disadvantaged Groups (Underserved Groups/Populations)
- Voice and Communication
